

Figure Flat Channel

TAPE LIGHT CHANNEL

DESCRIPTION

PreciseLED's aluminum channels are a required companion to our tape light modules. With excellent heat sinking and light diffusion capabilities, our channels can also be custom cut and/or painted to virtually any specification. The flat design of the Figure Flat Channel allows for variety of applications where a minimally intrusive channel is desired, while still having many options for compatible tape lights.

SPECIFICATIONS

- Dimensions: .89W x .33" H
- Materials: Aluminum/PC
- Maximum Width of LED Tape: .71"

COMPATIBILITY

The Figure Flat channel is compatible with the following tape lights:
