

Figure Slim Channel

TAPE LIGHT CHANNEL

Project Name:

Fixture Type:

DESCRIPTION

PreciseLED's aluminum channels are a required companion to our tape light modules. With excellent heat sinking and light diffusion capabilities, our channels can also be custom cut and/or painted to virtually any specification. The slim design of the Figure Slim Channel allows for many applications in narrow spaces. Our Figure Slim Channel is our thinnest to date.

SPECIFICATIONS

- Dimension: .69"W x .28" H
- Materials: Aluminum/PVC
- Maximum Width of LED Tape: .051"
