
ZENLITE® ARC
Curved LED Lighting System for New Construction
Curved Light. Defined Space.
preciseLED
Precision Through Innovation

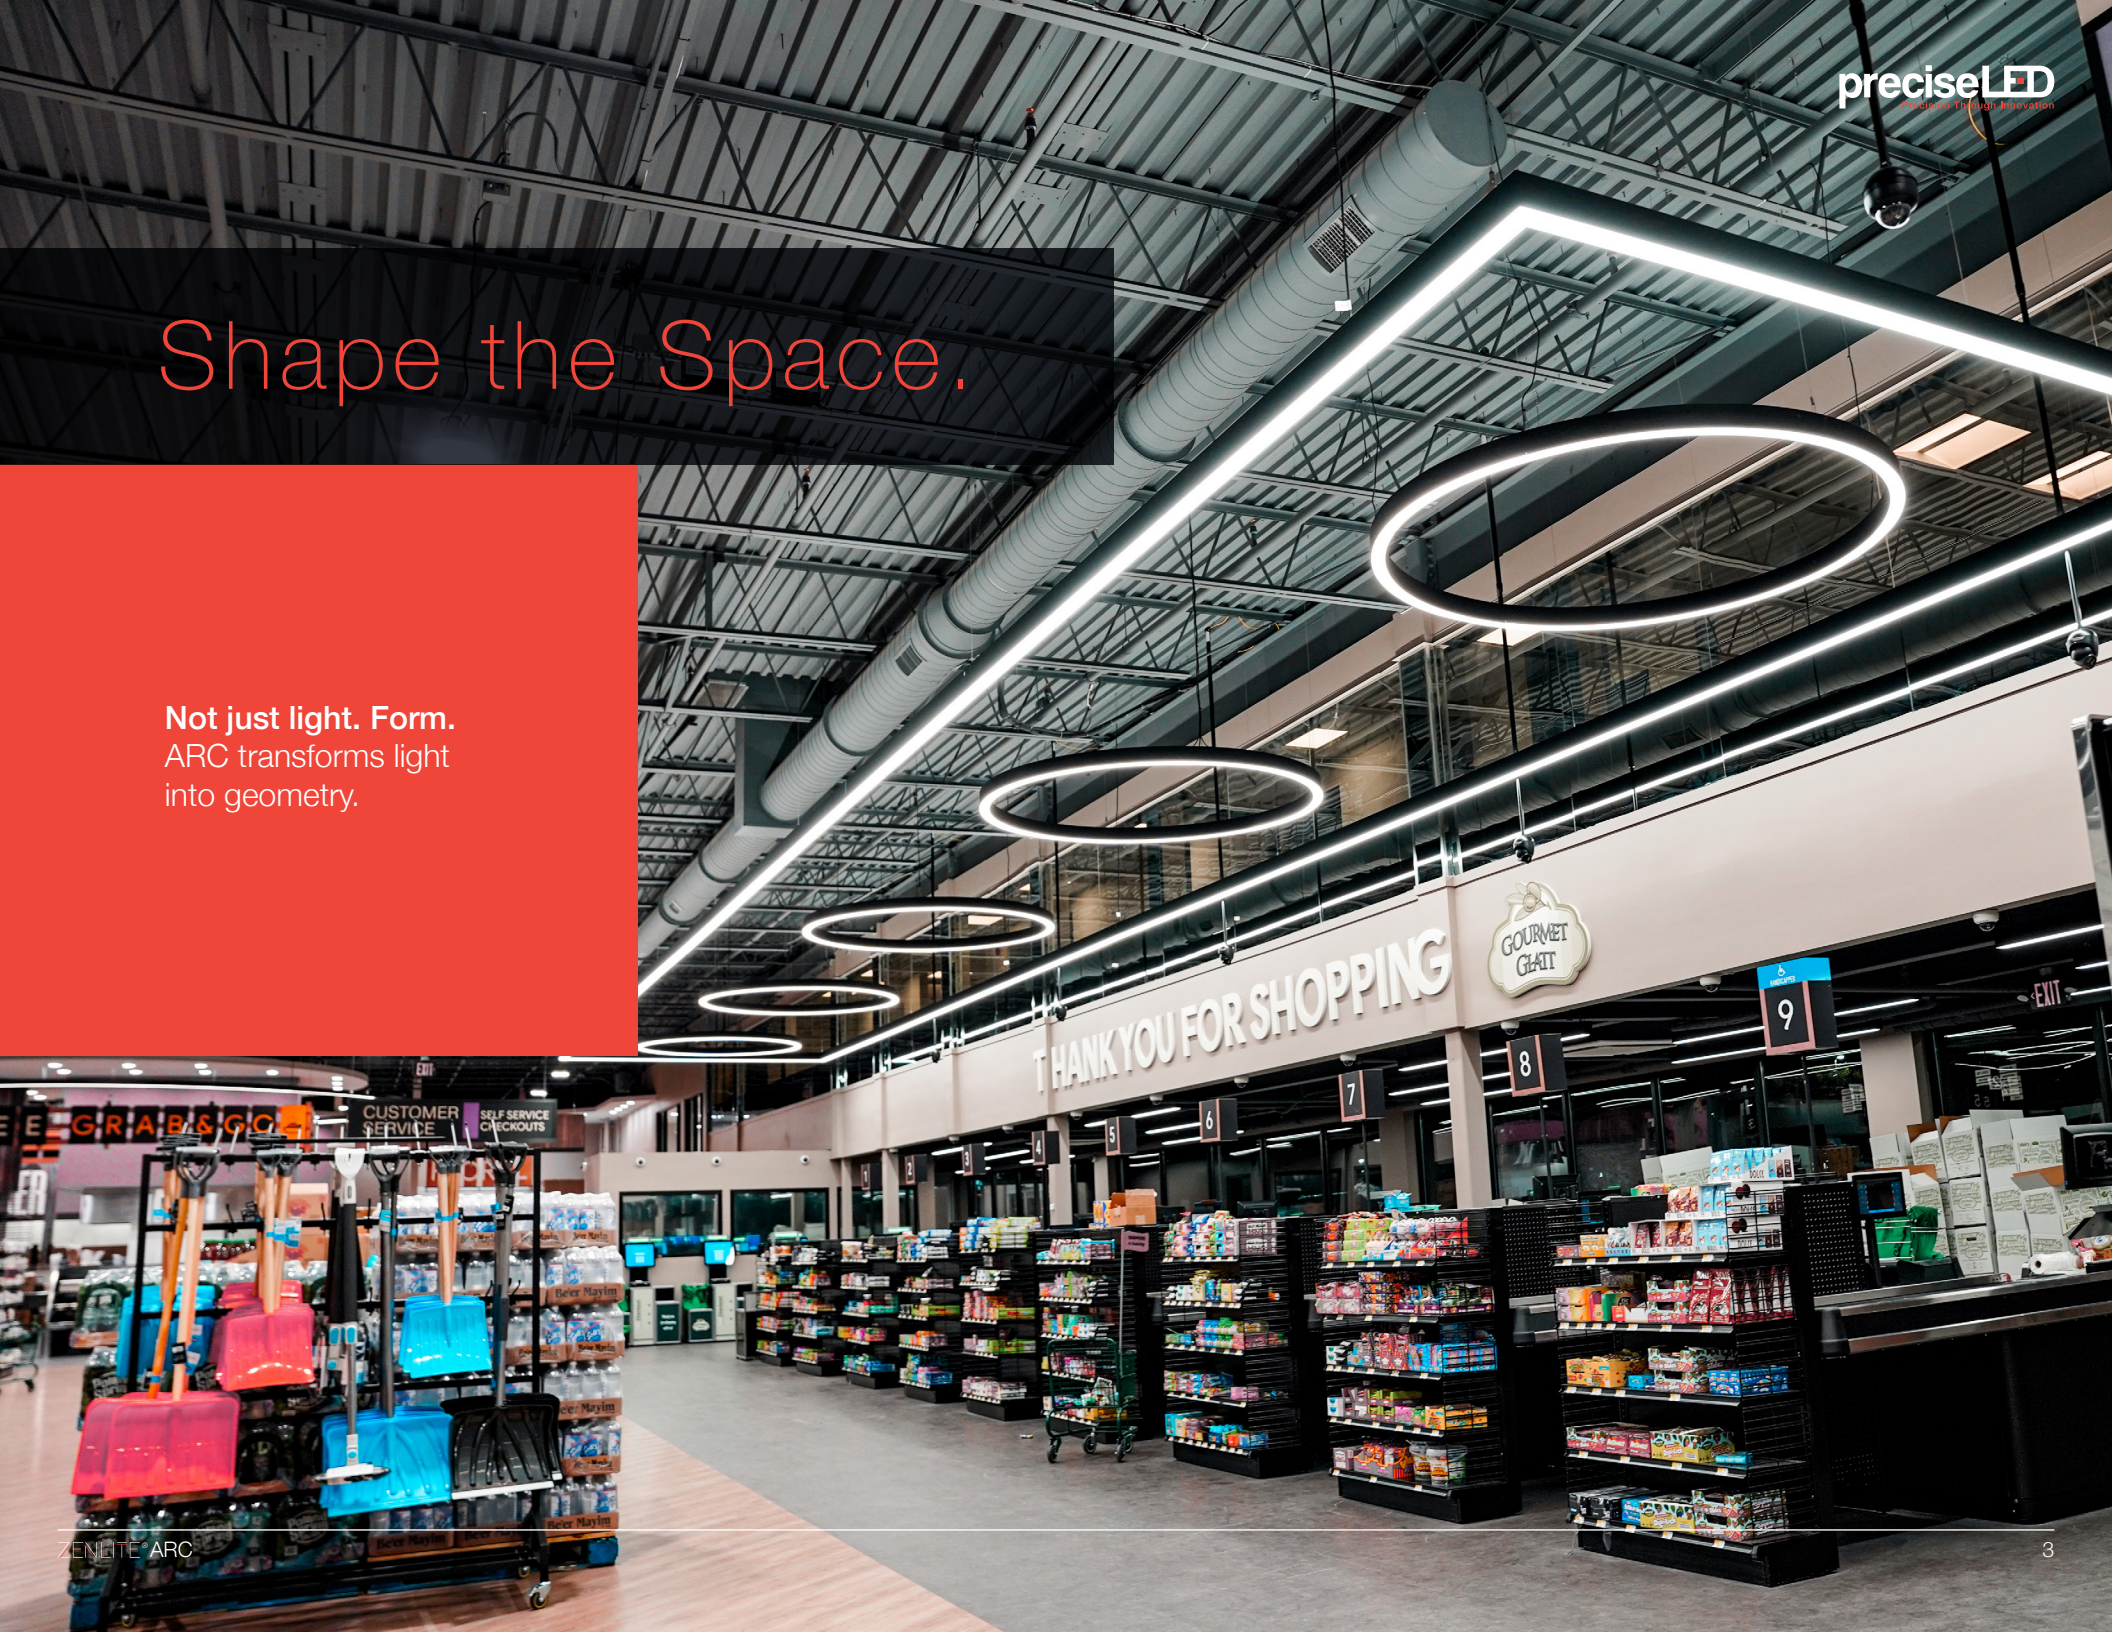

Design Without Corners.

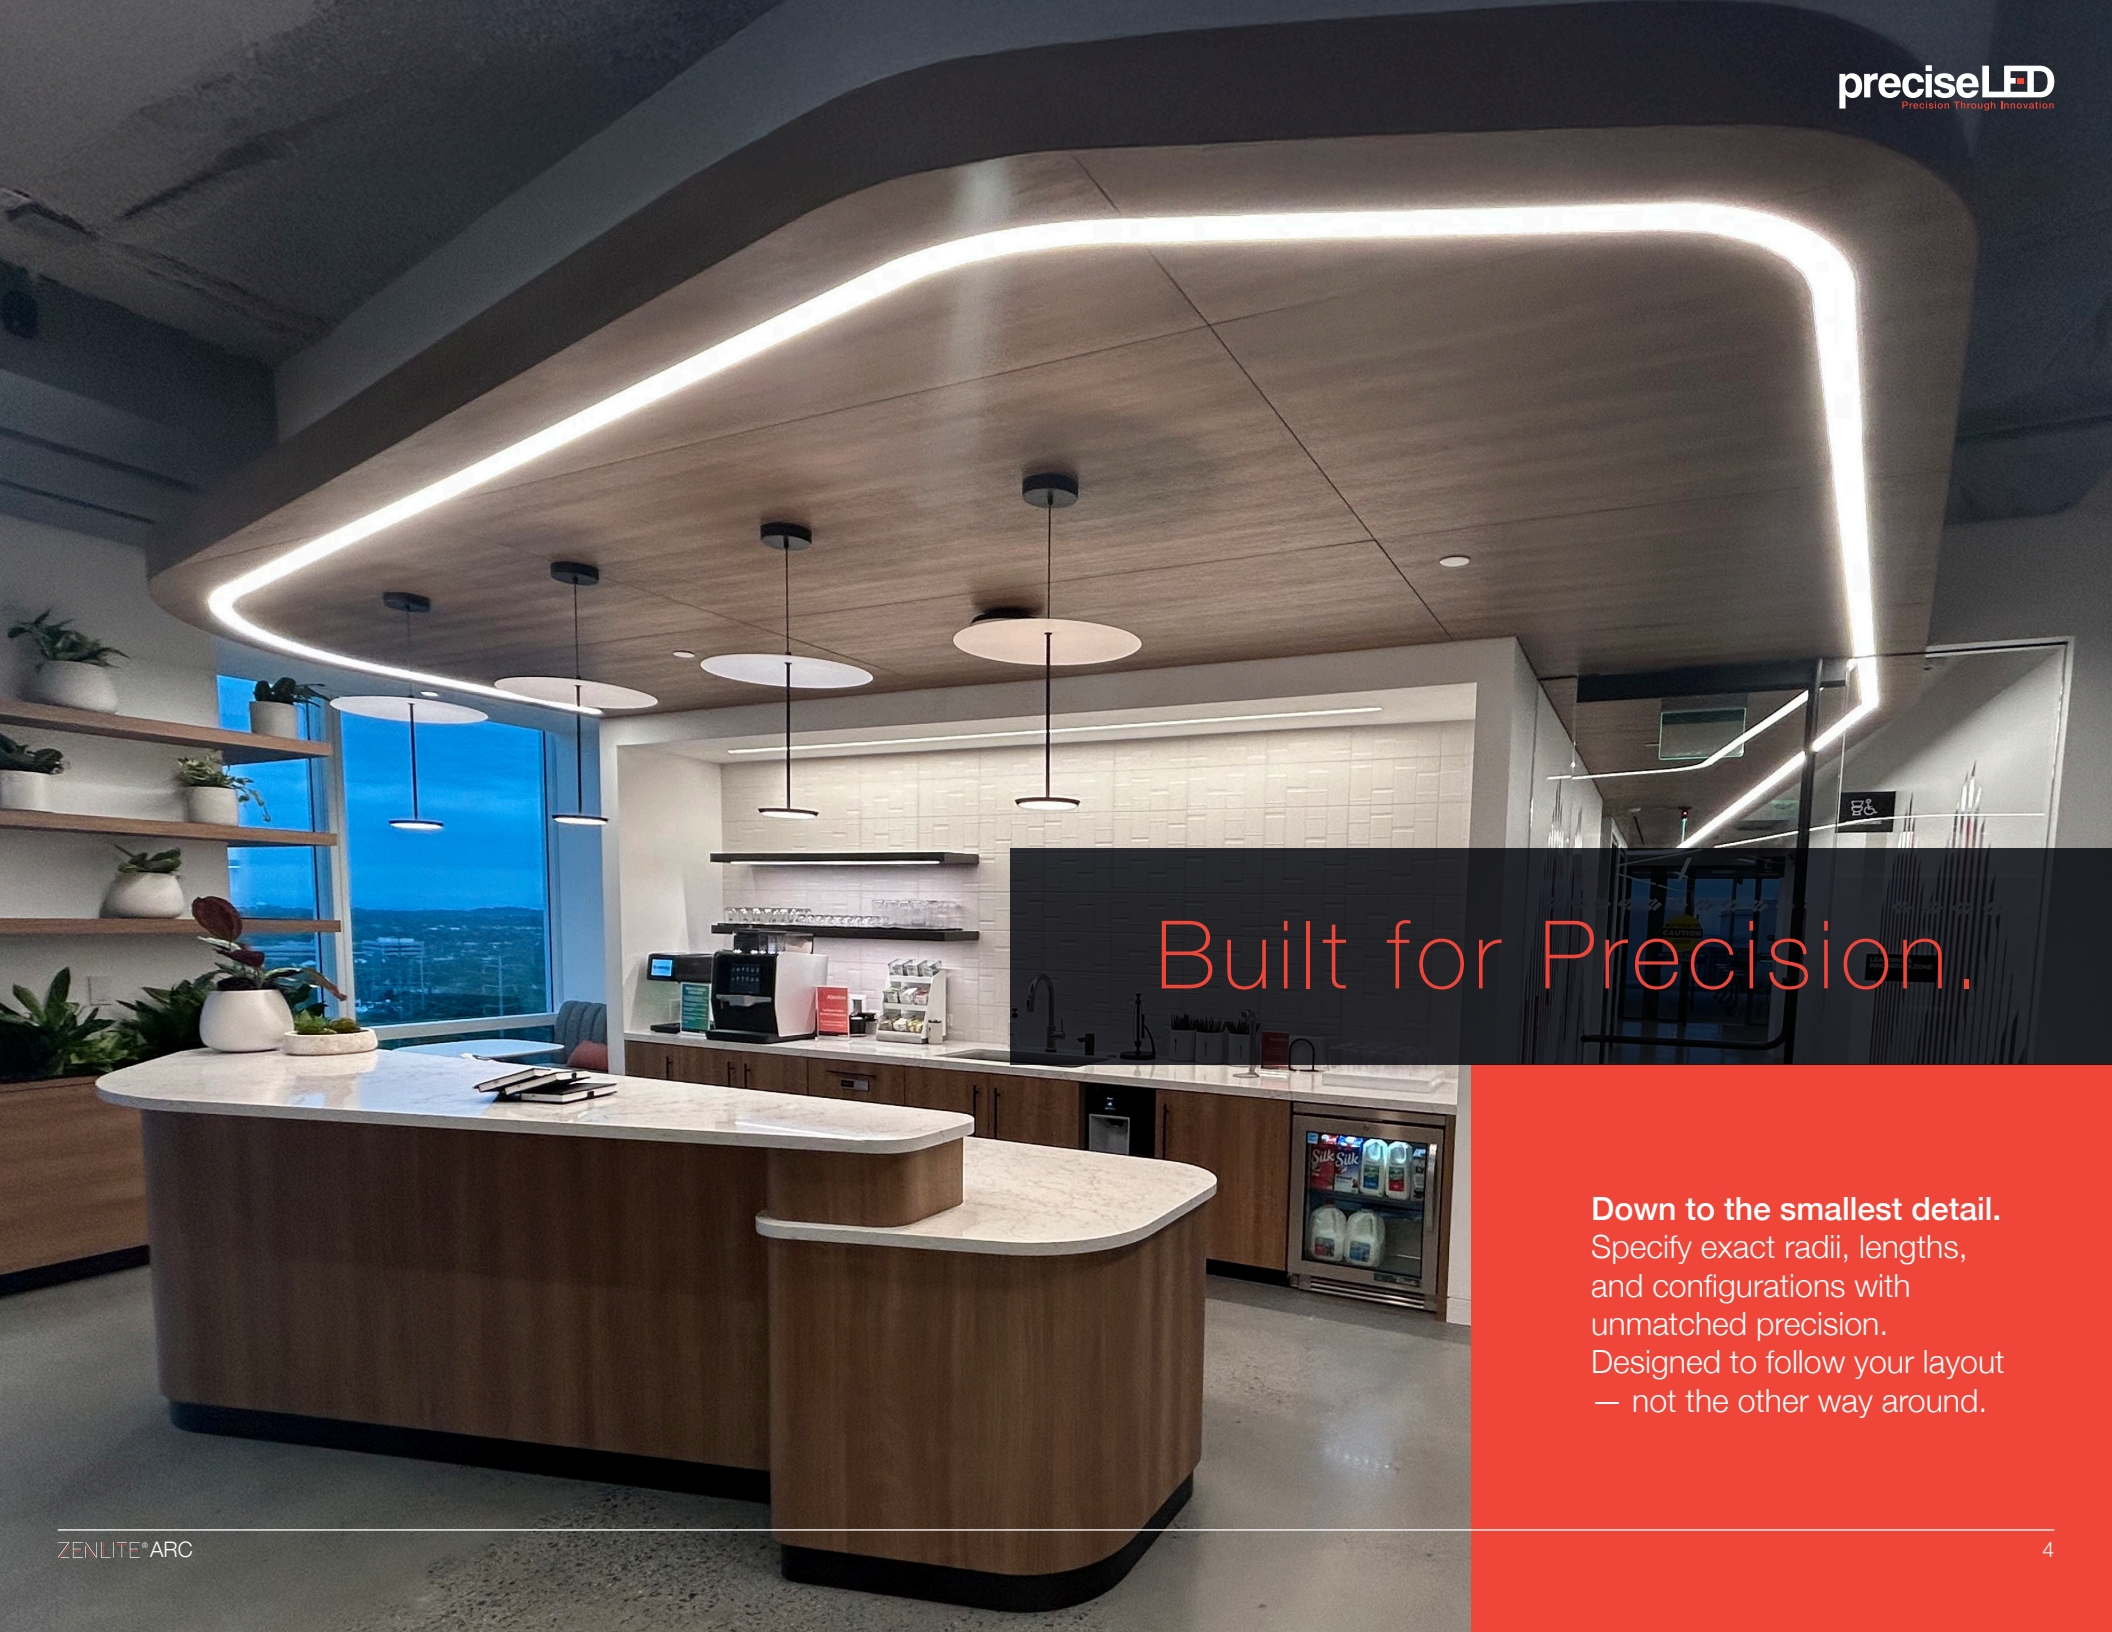

ZENLITE® ARC is a modular curved LED lighting system designed to follow architecture — not fight it.

preciseLED
Precision Through Innovation

Shape the Space.

Not just light. Form.
ARC transforms light
into geometry.

Built for Precision.

Down to the smallest detail.
Specify exact radii, lengths, and configurations with unmatched precision. Designed to follow your layout — not the other way around.

Create continuous lines, flowing arcs, or complete circles with precision-engineered segments built for new construction applications.

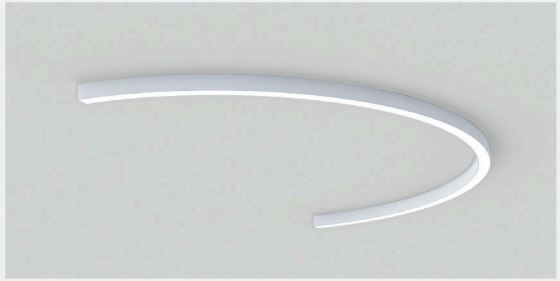

- Custom radius
- Straight, Segment, or Full Circle
- Side, Inward, or Outward curve
- Surface or Pendant

Geometry becomes a design tool.

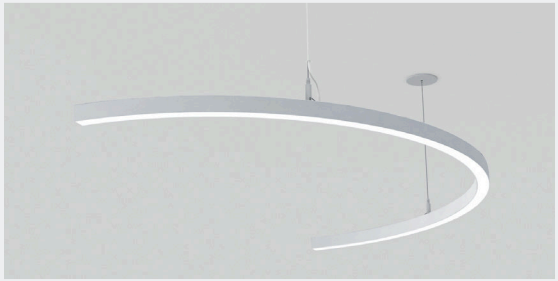

Multiple Mounting. One System.

With flexible mounting options and a variety of configurations, this fixture adapts seamlessly to your needs.

SURFACE MOUNT
(1 inch / 2 inch)

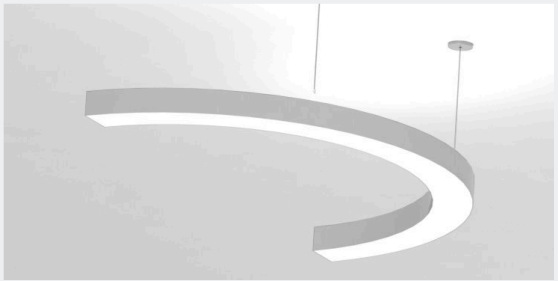

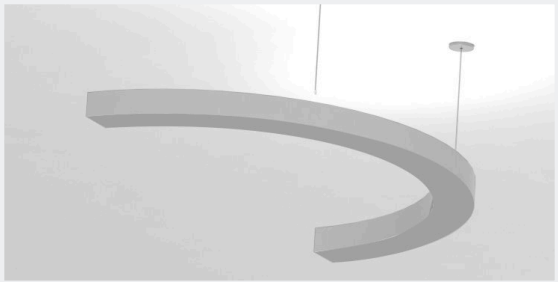

PENDANT MOUNT
(1 inch / 2 inch)

PENDANT MOUNT DIRECT/ INDIRECT
(1 inch / 2 inch)

PENDANT MOUNT INDIRECT ONLY
(1 inch / 2 inch)

Scale Your Curve.

Available in 1" and 2" profiles, ZENLITE® ARC allows designers to balance visual presence with output performance.

Specifications

- 24V system
- CRI ≥ 90
- 2700K – 4000K
- 50,000 hour rated life
- IP20
- 5 Year Warranty
- Custom radius fabrication

Ultra Slim.
Unlimited Geometry.

ZENLITE® ARC MICRO delivers the same design freedom in an ultra-minimal profile.

At just .44" x .46", it integrates seamlessly into refined architectural spaces where visual weight must disappear.

Precision Profile

When scale is critical, ARC MICRO delivers curved illumination with minimal footprint.

- .44” x .46” housing
- 2.4 W/ft
- 205 lumens/ft
- 24V system
- 90+ CRI
- No minimum or maximum radius

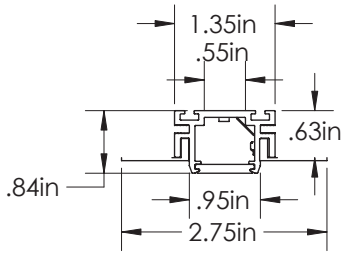

Geometry, Engineered.

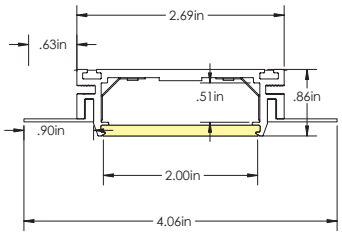

ZENLITE® Arc offers a range of curvatures to enhance any environment with precision lighting.

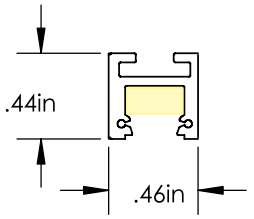

Choose Your Profile. Keep Your Geometry.

Both built on the same curved design philosophy.

	ARC	ARC MICRO
Profile	1" / 2"	0.46"
Visual Impact	Feature presence	Minimal integration
Output	Higher lumen performance	205 lm/ft
Application	Statement curves	Refined architectural detailing
